PROFILE SUMMARY

Aspiring Cloud Engineer with hands-on experience in AWS, Docker, Kubernetes, Terraform, and CI/CD practices. Skilled in building and managing cloud-based infrastructure, containerized applications, and deployment automation workflows. Proficient in Linux, monitoring tools, and DevOps fundamentals with a strong interest in cloud infrastructure, automation, and scalable system design. Passionate about learning modern cloud technologies and building reliable deployment solutions.

EDUCATION

Chandigarh University

Bachelor of Engineering in Computer Science

kharar, punjab

2025–2026

SKILLS

Cloud Platform: AWS (EC2, S3, EKS, RDS, Glue, API Gateway, Cloudfront)

Infrastructure as Code: Terraform, Cloudformation

Containers & Orchestration: Docker, Kubernetes

Version Control & CI/CD: Git, GitHub, GitLab, Codepipeline, Codebuild

Monitoring & Observability: Grafana, Prometheus, Amazon CloudWatch

Operating Systems & Networking: Linux, Networking

Languages: Python, SQL

EXPERIENCE

Freelance Motion Graphics Designer | Upwork

- Freelance Motion Graphics Designer | Upwork
- Worked with international clients on freelance motion graphics and creative projects.
- Managed client communication, project delivery, and revision workflows professionally.
- Developed strong problem-solving, collaboration, and deadline management skills.

PROJECTS

- **Docker Multi-Container Application** - Built and managed a containerized multi-service application using Docker. Worked with container networking, image management, and deployment workflows.
- **CI/CD Pipeline Project** - Implemented CI/CD workflows using GitHub Actions and Git-based version control. Automated build and deployment processes for application delivery.
- **Terraform Project** - Created and managed cloud infrastructure using Terraform and Infrastructure as Code practices. Automated infrastructure provisioning and resource management.
- **Kubernetes Project** - Worked with Kubernetes deployments, services, and container orchestration concepts. Managed application deployment and scaling in containerized environments.

ACHIEVEMENTS

- Winner of a College Hackathon
- Active learner in Cloud technologies
